

We hope that you will act as needed to reject the proposed rule changes on media ownership to be considered on June 2.

My wife, Nathelee, and I rely on a variety of media in our community to help us understand current issues. We look to radio, TV, newspapers and magazines to give us different slants and editorial opinions. From this diversity of thinking, we can develop our own positions.

We believe that the proposed rule changes will lead to consolidation of media ownership and less diversity in news reporting and analysis.

We urge the FCC to reject these changes.

Thank you.

Jim Bowman
